### And What Have You

By BOB CRAIG

Thank goodness, the Pipers have such foes as Coahoma and Jacksboro behind them and now begin playing people more in their class like Haskell and the other teams in this district. One of the best things that can be said about these last two games is that we didn't get anybody hurt.

I don't know who I was more proud of Saturday, our team or the fans. The boys were outmanned and outplayed but never gave up and the fans recognized this and stayed with them all the way.

I am still convinced that this bunch of kids can fool some people before this season is over and this just might be the week. If these boys will just remember all of the things they have learned during these past weeks and put them together Friday night they can win.

After looking at their yardage gained figures for the first five games there is no question but what they have enough offense to win if they can just put some patches on their defense. Of course their biggest problem is their inexperience and this shows up the most on defense.

What these youngsters need more than anything else is confidence and nothing would give them confidence quite like a win over Haskell this week. A win this week could turn this whole season around.

Let's all get behind them Friday and back them all the way.

This week, Oct. 10-16, is National Newspaper Week. This is the one time during the year when the more than 9,000 weekly and daily newspapers of the nation join hands, as a group, and make a concerted effort to promote a better understanding of newspapers and the vital role they play in preserving the great American way of life, which we cherish.

Newspaper Week was instituted nationally in 1940, and is sponsored by Newspaper Association Managers, Inc., a nationwide organization of state, regional, and national press association managers.

"Newspapers — Growing with America" is the theme for this year's observance.

Newspaper Week is one of the many special weeks observed in this country. It is one which seemingly at first glance is important to only one kind of business, but actually it is of major importance to every citizen.

This week is not primarily set aside for newspapers to indulge in self-praise, but it is a time to remind readers of the fact that growth in this free nation goes hand in hand with growth in its free press.

Wars have been fought to gain and preserve our independence. So, too, is battle waged by the newspapers of our country to defend and guard the freedoms and rights of a free people. This is a never-ending fight, quite at times, at other times loud but always on behalf of the American people.

Newspapers are a vital part of the American economy, purchasing many millions of dollars of materials each year and offering through advertising, opportunities for businessmen to increase their revenue and for buyers to use their money to the best advantage.

It was Eugene Fitch Ware who said: "No town can hope prosperity and trade, Unless the press shall vigorously aid."

Since I know that all of you will want to take part in this special week I thought that it would be well to pass along the following suggestions by Betty Hutchinson, writing in her column "Pertinent Piffle" in the *Iowa Pioneer Record*.

"This is National Newspaper Week! I knew that would send a little tremor of excitement coursing

## Sewer Bond Election Passes Saturday, 116-5

Hamlin voters gave overwhelming approval to the \$150,000 bond election here Saturday by passing it 116 to 5. The bond election was called to finance the city's share in constructing a new sewer treatment plant.

It is expected that about \$100,000 of this will be needed to finance the plant construction and the purchase of the land. The other \$50,000 will only be used if more sewer system work is required to meet state and federal regulations.

Only the bonds needed to finance the project will be sold. The treatment plant is expected to cost about \$145,000 with the federal government furnishing approximately \$80,000 of this in the form of a grant. The balance of the money will come from the bond issue with the city also purchasing the land needed.

No increase in city taxes will

be needed to meet the bond payments as the \$1.00 increase in sewer fees passed early this summer is expected to be enough to retire the bonds.

Yeatts and Decker, Inc., Consulting Engineers of Abilene are engineers on the project and the First Southwest Co. of Lubbock are bond consultants for the city.

The city must now wait on approval of its plans by the Texas Water Quality Board before advertising for bids on the construction of the new sewer treatment plant.

**FORTY-FIVE YEARS AGO**  
(October 12, 1928)

The local High School, Football Pied Pipers, had a battle royal on the home field last Friday afternoon when they were met by the Roby Lions. This was the opening game and one of the best "fist games" ever played in Hamlin. That Hamlin has a great team is conceded by all who saw them play, notwithstanding that a number of the boys are playing their first year.

This Friday is "High Tension" day in Hamlin. This is brought about because the Hamlin Pied Pipers are playing the Stamford team this afternoon. Always when Hamlin plays Stamford or Anson, there is a great deal of interest shown in the game. The usual will take place and the usual means the continued spirit of win 'em Piper, beat 'em Pipers, beat Stamford. Your presence will aid the home boys, don't forget that.

This week Texas is again in the limelight. It is National Legion week and the big party is being held at San Antonio, the Texas city of armies.

Hamlin is well represented. Mr. and Mrs. C. D. Russell, W. B. Steadman, Floyd Wilson, Mart Farrow, Buren Carlton, Marvin Carlton and Mr. and Mrs. Paul Friend are all those as far as the Herald has been able to learn who left Sunday for the convention.

The city of San Antonio offers many attractions for out of state people and the side trip to the gulf, Rio Grande Valley and "across" all expend the joy of the convention.

**TWENTY YEARS AGO**  
(October 12, 1951)

Steady, growth in assets and surplus were reported at the annual meeting of the Hamlin Memorial Hospital Association, held in the auditorium of the high school Sunday afternoon, according to officials of the organization, a citizen-owned stock company.

J. C. Turner, Hamlin attorney, Raleigh Reynolds, a farmer, and J. E. Patterson, local real estate and insurance agent, were elected to the board of directors for a three-year term.

In conclusion the auditor's report praised the condition in which the books were found and the orderly manner in which they had been maintained.

At the conclusion of the meeting, the board of directors named Mr. Fletcher as president; C. E. Gregory, vice president; J. C. Turner, secretary and treasurer; and J. E. Patterson, ex-secretary-treasurer.

Hamlin's Volunteer Fire Department team won second place in the six-man hook-up race at the semi-annual convention of the Midwest Firemen's Association at Post last week.

Members of the team were Carl Young, Bill Thompson, Weldon Hudson, Jake Lawson, Cahrls Carter and Louie Cunningham.

Rotan, Roby and Snyder volunteer firemen also won honors.

Rotan firemen took home a gold trophy for winning first place in the six-man hook up race. They also won third places in the pumper race and in the two-man hookup race.

J. O. (Andy) Anderson of Cisco, president, presided at the convention. Chief Parker of Rotan is first vice president and J. Parker Sharp of Merkel is secretary.

The Post team set the pattern for the races in downtown Post but did not compete since they were the hosts.

Ground breaking ceremonies for a new \$325,000 hospital were staged Monday morning in Anson.

Voters Friday approved 189 to five a \$25,000 bond issue. Anson's part of the new hospital which will be built by Balfang Construction Company of Abilene.

Other funds for completing the hospital will be handled by the State of Texas and the federal government.

**TEN YEARS AGO**  
(October 12, 1961)

Hamlin fans will be hoping that the Friday the 13th jinks will strike the state ranked Anson eleven when the Tigers and the Pipers met here Friday night for the district conference opener for both teams. The seventh ranked Tigers will be rated as favorites having lost only to highly respected Class A Albany.

As with all conference games, the kickoff is set for 7:30 Friday night.

Unless the Pipers are plagued with injuries during practice they will be in good physical shape for the district opener.

The other game in the district race finds Spur taking on Stamford while Haskell watches both games from the sidelines.

The annual Boy Scout finance drive for Hamlin will be launched next Thursday with a breakfast meeting, general chairman Leldon Clifton announced this week.

There will be no set quota, "The objective is to see that every prospect is seen but a dollars and cents figure will not be set," Troy Boone, district Scout executive explained.

Working under Clifton will be a number of men to handle the details of the overall drive. In addition, five majors have been designated. These in turn will select five captains. The captains name five or six workers who will make calls on the prospects.

through your bloodstream. So this week when your Pioneer Record goes by, stand up and salute.

"There are many ways that you readers can show your respect to your beloved newspaper. This week when you wrap the garbage up in Pertinent Piffle put a bow on top. When the kiddies wipe their muddy feet on somebody's bride, ask them to say, 'thank you.' This week when you scream 'On the Paper!' at the puppy give him the opportunity to cover some of our finer reading material. He might like a shot at Chatter from The Clerk's Desk or One Column Wide.

"Youy gals who are up to your eyeballs in fall housecleaning have a wonderful opportunity to show your respect to the P. R. As you paint the kitchen walls, stand on one of the editorials and give it your full support. As baby watches you do your painting, place him tenderly on the Superintendent's Corner. services for selected disability cases this year.

"Since the social security rehabilitation program began in 1965," the spokesman said, "more than 7,100 people who had been receiving social security disability benefits had those benefits terminated because they were able to return to gainful work."

Disabled workers with a good potential for rehabilitation are referred to State vocational rehabilitation agencies by social security, according to the spokesman.

## Social Security Helps Rehabilitate Disabled

People who receive monthly disability benefits from social security are severely disabled, yet many are helped by rehabilitation, according to social security officials here.

"Social security benefits are paid to eligible people with severe, long-lasting physical or mental impairments," a spokesman said. "Still, one in five receives rehabilitation services paid for by State, Federal, local, or private agencies. Of

those beneficiaries, one in 10 receives financial help for vocational rehabilitation from social security."

Rehabilitation includes job training, physical therapy, and similar services.

About 1.5 million disabled workers and 1.5 million dependents receive about \$3 billion a year in monthly disability benefits from social security. About \$24 million has been allocated by social security to help pay for rehabilitation

## MOVE in the RIGHT DIRECTION

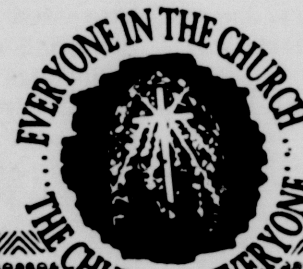

To attend Church is the first step in finding God.  
To attend regularly is to continue in the right direction, and gives one an opportunity to understand God's will in his life. Now is the time to make your move. Choose the way that will lead you to God.

Attend Church

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

### And What Have You

By BOB CRAIG

Thank goodness, the Pipers have such foes as Coahoma and Jacksboro behind them and now begin playing people more in their class like Haskell and the other teams in this district. One of the best things that can be said about these last two games is that we didn't get anybody hurt.

I don't know who I was more proud of Saturday, our team or the fans. The boys were outmanned and outplayed but never gave up and the fans recognized this and stayed with them all the way.

I am still convinced that this bunch of kids can fool some people before this season is over and this just might be the week. If these boys will just remember all of the things they have learned during these past weeks and put them together Friday night they can win.

After looking at their yardage gained figures for the first five games there is no question but what they have enough offense to win if they can just put some patches on their defense. Of course their biggest problem is their inexperience and this shows up the most on defense.

What these youngsters need more than anything else is confidence and nothing would give them confidence quite like a win over Haskell this week. A win this week could turn this whole season around.

Let's all get behind them Friday and back them all the way.

This week, Oct. 10-16, is National Newspaper Week. This is the one time during the year when the more than 9,000 weekly and daily newspapers of the nation join hands, as a group, and make a concerted effort to promote a better understanding of newspapers and the vital role they play in preserving the great American way of life, which we cherish.

Newspaper Week was instituted nationally in 1940, and is sponsored by Newspaper Association Managers, Inc., a nationwide organization of state, regional, and national press association managers.

"Newspapers — Growing with America" is the theme for this year's observance.

Newspaper Week is one of the many special weeks observed in this country. It is one which seemingly at first glance is important to only one kind of business, but actually it is of major importance to every citizen. This week is not primarily set aside for newspapers to indulge in self-praise, but it is a time to remind readers of the fact that growth in this free nation goes hand in hand with growth in its free press.

Wars have been fought to gain and preserve our independence. So, too, is battle waged by the newspapers of our country to defend and guard the freedoms and rights of a free people. This is a never-ending fight, quite at times, at other times loud but always on behalf of the American people.

Newspapers are a vital part of the American economy, purchasing many millions of dollars of materials each year and offering through advertising, opportunities for businessmen to increase their revenue and for buyers to use their money to the best advantage.

It was Eugene Fitch Ware who said: "No town can hope prosperity and trade, Unless the press shall vigorously aid."

Since I know that all of you will want to take part in this special week I thought that it would be well to pass along the following suggestions by Betty Hutchinson, writing in her column "Pertinent Piffle" in the *Iowa Pioneer Record*.

"This is National Newspaper Week! I knew that would send a little tremor of excitement coursing

## Sewer Bond Election Passes Saturday, 116-5

Hamlin voters gave overwhelming approval to the \$150,000 bond election here Saturday by passing it 116 to 5. The bond election was called to finance the city's share in constructing a new sewer treatment plant.

It is expected that about \$100,000 of this will be needed to finance the plant construction and the purchase of the land. The other \$50,000 will only be used if more sewer system work is required to meet state and federal regulations.

Only the bonds needed to finance the project will be sold. The treatment plant is expected to cost about \$145,000 with the federal government furnishing approximately \$80,000 of this in the form of a grant. The balance of the money will come from the bond issue with the city also purchasing the land needed.

No increase in city taxes will

be needed to meet the bond payments as the \$1.00 increase in sewer fees passed early this summer is expected to be enough to retire the bonds.

Yeatts and Decker, Inc., Consulting Engineers of Abilene are engineers on the project and the First Southwest Co. of Lubbock are bond consultants for the city.

The city must now wait on approval of its plans by the Texas Water Quality Board before advertising for bids on the construction of the new sewer treatment plant.

FROM THE FILES . . .

Forty-five years ago  
(October 12, 1928)

The local High School, Football Pied Pipers, had a battle royal on the home field last Friday afternoon when they were met by the Roby Lions. This was the opening game and one of the best "fist games" ever played in Hamlin. That Hamlin has a great team is conceded by all who saw them play, notwithstanding that a number of the boys are playing their first year.

This Friday is "High Tension" day in Hamlin. This is brought about because the Hamlin Pied Pipers are playing the Stamford team this afternoon. Always when Hamlin plays Stamford or Anson, there is a great deal of interest shown in the game. The usual will take place and the usual means the continued spirit of win 'em Piper, beat 'em Pipers, beat Stamford. Your presence will aid the home boys, don't forget that.

This week Texas is again in the limelight. It is National Legion week and the big party is being held at San Antonio, the Texas city of armies.

Hamlin is well represented. Mr. and Mrs. C. D. Russell, W. B. Steadman, Floyd Wilson, Mart Farrow, Buren Carlton, Marvin Carlton and Mr. and Mrs. Paul Friend are all those as far as the Herald has been able to learn who left Sunday for the convention.

The city of San Antonio offers many attractions for out of state people and the side trip to the gulf, Rio Grande Valley and "across" all expend the joy of the convention.

Twenty years ago  
(October 12, 1951)

Steady, growth in assets and surplus were reported at the annual meeting of the Hamlin Memorial Hospital Association, held in the auditorium of the high school Sunday afternoon, according to officials of the organization, a citizen-owned stock company.

J. C. Turner, Hamlin attorney, Raleigh Reynolds, a farmer, and J. E. Patterson, local real estate and insurance agent, were elected to the board of directors for a three-year term.

In conclusion the auditor's report praised the condition in which the books were found and the orderly manner in which they had been maintained.

At the conclusion of the meeting, the board of directors named Mr. Fletcher as president; C. E. Gregory, vice president; J. C. Turner, secretary and treasurer; and J. E. Patterson, ex-secretary-treasurer.

Hamlin's Volunteer Fire Department team won second place in the six-man hook-up race at the semi-annual convention of the Midwest Firemen's Association at Post last week.

Members of the team were Carl Young, Bill Thompson, Weldon Hudson, Jake Lawson, Cahrles Carter and Louie Cunningham.

Rotan, Roby and Snyder volunteer firemen also won honors.

Rotan firemen took home a gold trophy for winning first place in the six-man hook up race. They also won third places in the pumper race and in the two-man hookup race.

J. O. (Andy) Anderson of Cisco, president, presided at the convention. Chief Parker of Rotan is first vice president and J. Parker Sharp of Merkel is secretary.

The Post team set the pattern for the races in downtown Post but did not compete since they were the hosts.

Ground breaking ceremonies for a new \$325,000 hospital were staged Monday morning in Anson.

Voters Friday approved 189 to five a \$25,000 bond issue. Anson's part of the new hospital which will be built by Balfang Construction Company of Abilene.

Other funds for completing the hospital will be handled by the State of Texas and the federal government.

Hamlin fans will be hoping that the Friday the 13th jinks will strike the state ranked Anson eleven when the Tigers and the Pipers met here Friday night for the district conference opener for both teams. The seventh ranked Tigers will be rated as favorites having lost only to highly respected Class A Albany.

As with all conference games, the kickoff is set for 7:30 Friday night.

Unless the Pipers are plagued with injuries during practice they will be in good physical shape for the district opener.

The other game in the district race finds Spur taking on Stamford while Haskell watches both games from the sidelines.

The annual Boy Scout finance drive for Hamlin will be launched next Thursday with a breakfast meeting, general chairman Leldon Clifton announced this week.

There will be no set quota, "The objective is to see that every prospect is seen but a dollars and cents figure will not be set," Troy Boone, district Scout executive explained.

Working under Clifton will be a number of men to handle the details of the overall drive. In addition, five majors have been designated. These in turn will select five captains. The captains name five or six workers who will make calls on the prospects.

through your bloodstream. So this week when your Pioneer Record goes by, stand up and salute.

"There are many ways that you readers can show your respect to your beloved newspaper. This week when you wrap the garbage up in Pertinent Piffle put a bow on top. When the kiddies wipe their muddy feet on somebody's bride, ask them to say, 'thank you.' This week when you scream 'On the Paper!' at the puppy give him the opportunity to cover some of our finer reading material. He might like a shot at Chatter from The Clerk's Desk or One Column Wide.

"Youy gals who are up to your eyeballs in fall housecleaning have a wonderful opportunity to show your respect to the P. R. As you paint the kitchen walls, stand on one of the editorials and give it your full support. As baby watches you do your painting, place him tenderly on the Superintendent's Corner. This way he can really absorb knowledge from the bottom up. You might get the cat out of the way by putting him In My Valley."

services for selected disability cases this year.

"Since the social security rehabilitation program began in 1965," the spokesman said, "more than 7,100 people who had been receiving social security disability benefits had those benefits terminated because they were able to return to gainful work."

Disabled workers with a good potential for rehabilitation are referred to State vocational rehabilitation agencies by social security, according to the spokesman.

A move to worship GOD  
in His HOUSE is a

MOVE in the  
RIGHT DIRECTION

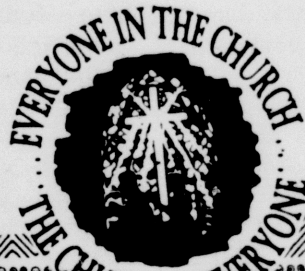

To attend Church is the first step in finding God.  
To attend regularly is to continue in the right direction, and gives one an opportunity to understand God's will in his life. Now is the time to make your move. Choose the way that will lead you to God.

Attend Church

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

## Agent Warns of Pending Army Worm Infestation

Fall army worms are expected to appear in grain fields within the next few days according to Kirby Clayton County Agricultural Agent. Moth lay their eggs in masses on small grains, forage sorghums and native grasses. Eggs hatch in a matter of days and the young larva start feeding on the young tender grain.

Weather conditions continue to favor infestations of fall armyworms. Producers as well as homeowners are encouraged to watch closely for fall armyworms to prevent excessive damage.

Insecticides for control of fall armyworms attacking small grains are Sevin, Methyl Parathion, Parathion and Toxaphene. Parathion is not cleared for use on rye. Forage treated with Toxaphene should not be fed to dairy animals or animals being finished for slaughter. For further information on these materials contact your County Agricultural Agent or refer to the label.

Insecticides that will give effective control of fall armyworms in the lawns are Sevin, Toxaphene, and Dylox. These materials should be applied according to directions given on label.

McCaulley High School Homecoming will be Oct. 23.

## Neinda Philosopher Comes Out With Far-Reaching Idea On Seat Belt Use

Editor's note: The Neinda Philosopher on his Johnson grass farm on Route One has been reflecting on a new rule the government has ordered.

Dear editor:

By 1974, according to an article I read in a newspaper last night, all new cars must be equipped with seat belts that have to be fastened before the car will start.

This was ordered, the government said, because despite the fact all new cars now come equipped with seat belts, less than 30 percent of the people use them.

## 220 Join P-TA Here In Annual Membership Drive

Memberships in the Hamlin Elementary Parent-Teachers Association reached 220 following the annual membership drive. Last year's memberships totaled 221.

Cash awards of \$6.50 were given for first place winners and \$3.50 for second place winners in each building.

Primary school winners were Mrs. Fred Smith's room, first; and Mrs. James Eddie Jay's room, second.

Elementary school winners were Mrs. Charles Absher's room, first, and Miss Maggy Seymore's room, second.

Junior high school winners were Mrs. Ernest Jenkins' room, first, and Mrs. Weldon Johnson's, second.

Mr. and Mrs. Larry Butler of Marathon visited with his parents, Mr. and Mrs. C. E. Butler, and attended Homecoming activities.

Visiting in the home of Mr. and Mrs. Bobby King were his mother, Mrs. Emma L. King, brother and sister Richard and Cheryl, and another brother and family, Mr. and Mrs. Mickey King and children, Mickey Edwin and Russell, all of Alvord.

So, after 1974, the seat belt will be hooked up with wires somehow with the ignition switch, and the car won't start unless the belt is fastened.

This sounds like a good idea and if it works it ought to be utilized further.

For example, instead of a key to start your car with, the government should require a punch card and a complicated slot on the dashboard. With the right holes punched and the card inserted, the car starts only if the seat belt is fastened.

But another series of holes won't let it start unless you've registered to vote, another unless you've actually voted, another unless you've paid your taxes, another unless you've had all your shots, donated to the community chest, etc.

You get the idea. You can shape this country up almost completely through the punch

card system of turning on 'the ignition in everybody's car. By putting enough holes in the card to cover practically everything, morally ecologically, politically, etc., you could come up with a system whereby anybody who could still start his car after 20 years of driving would be qualified to serve on the Supreme Court without even being investigated. Like it is, if you investigate far enough, you may find nobody is qualified for the Court or anything else.

However, if the government limits its fastened-seat-belt rule just to seat belts, what's to keep a man from carefully fastening all the seat belts in his car with nobody in them, sitting on the one in the driver's seat, and taking off as usual? I've always said Congress ought to study human nature more.

Yours faithfully,  
J. A.
